

# Download Diagnosis And Treatment Of Functional Infertility

Diagnosis. Before infertility testing, your doctor or clinic works to understand your sexual habits and may make recommendations based on these. Infertility is not a disease but a condition where in a particular couple is not able to conceive. Infertility problems in a couple can be due to either the woman or the man, or it can be even due to problems in both partners. Do you have problems no doctor can diagnose? Have you been sick for years? Have you seen doctor after doctor with no relief? Or worse, have you been given a diagnosis (like Parkinson's disease, lupus, diabetes or dementia) and told there is no cure?
