

Download Terrorism And Homeland Security

The Homeland Security Resource Center was established in 2000 to promote awareness on a variety of international security and preparedness issues. In 2011, the Department of Homeland Security (DHS) replaced the color-coded alerts of the Homeland Security Advisory System (HSAS) with the National Terrorism Advisory System (NTAS), designed to more effectively communicate information about terrorist threats by providing timely, detailed information to the American public. Protecting the United States from terrorism is the founding mission of the Department of Homeland Security. While America is stronger and more resilient as a result of a strengthened homeland security enterprise, threats from terrorism persist and continue to evolve. Homeland security starts with hometown security—and we all have a role to play. LIU's Homeland Security and Terrorism Institute (HSTI) is the nation's premier online graduate education program in homeland security management.
